Mental illness and destructive behavior in the workplace are serious issues that all large organizations must periodically face. EPA's actions in response to incidents that occurred months ago have been deliberate and have focused on our responsibility to ensure a safe work environment for our employees. Our brief consultation with Dr. Nicoletti on this matter, a resource who regularly provides our office with training and expertise on workplace issues, reflects that responsibility.

Rich,

Can you provide us with a comment about the poop incident at the Denver EPA office?

Thank You -

Kevin Torres
